

Yext Search Implementation

About Pureinsights

Pureinsights is a Professional Services company. With an average of 15 years of experience, our search and analytics professionals are passionate about what we do. We spend every day helping enterprise leaders integrate search with AI technology like machine learning, natural language processing and knowledge graphs to optimize their search systems to delight their users. If you're looking for a partner to take your Yext Search implementation to the next level, we have the talent and experience to ensure your satisfaction and the success of your project.

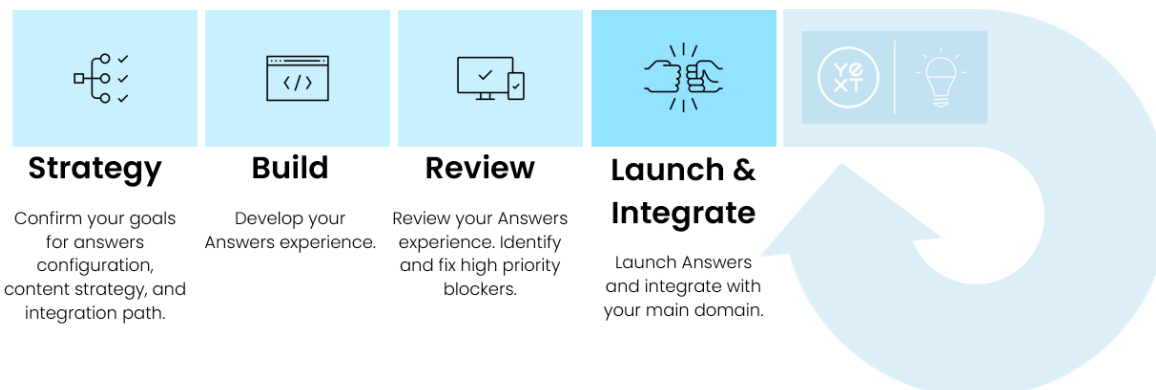

Yext Search Setup Service

Pureinsights Yext Search Setup Service is an expedient and reliable way to set up your Yext Search Experience. The Service is summarized as follows:

- A Yext trained engineer will take your team through all the steps necessary to get Yext Search running
 - Universal Search for one brand that combines **up to 7 Vertical Search tabs** and up to **15 query rules**
 - Integrate with one of the supported blue link search solutions based on Yext's search connectors
 - Search for entities stored in Yext by attributes and relationship (specialty, name, keyword, location, services)
 - Add crawled pages to Yext Search and show you how to add more in the future
 - Filter search results by entity attributes stored in the Yext Knowledge Graph
 - Autocomplete/typeahead searching
 - Inclusion of 'drop-in' third party integrations that consist of a simple JavaScript snippet to be added to the page template with no further customization required
 - Up to 40 hours (additional hours available)
- Provide integration instructions to your team for installation of Yext Search search experience and bar
- Frontend experience will include:
 - Standard card layout with Universal and Vertical search tabs
 - Styling to match basic brand guidelines (colors, fonts, button styling, icons)
 - **A single frontend build**

The goal is to confirm your strategy and goals and to build, review and launch in an expeditious manner.
